INQUIRY INTO THE ONLINE MARKET IN SOUTH AFRICA

In response to the growing importance of the online economy and competition, the Competition Commission launched an investigation into competition and participation in the online economy in 2021.

In July 2022 the Competition Commission released a report that highlighted the lack of effective competition in the fees charged by app developers leading to high prices.

The commission recommended that certain considerations be taken into account regarding payment options for goods and services and how they are priced. The matter has since been referred to the Competition Tribunal.
